

THE JOURNAL OF THE LINNEAN SOCIETY OF LONDON

ZOOLOGY

Vol. 47 (Nos. 311–313)

LONDON:
THE LINNEAN SOCIETY OF LONDON, BURLINGTON HOUSE,
PICCADILLY, W1V 0LQ.

1967–68

Number 311, pages [iv], 1-260, was published in October 1967

Number 312, pages 261-424, was published in April 1968

Number 313, pages 425-578, was published in October 1968

CONTENTS

Papers marked with an asterisk are included in number 311, *Papers on Fossil Vertebrates*, which has its own index, starting on page 255.

	PAGE
BERRY, P. Y. & VARUGHESE, G. Reproductive variation in the Torrent Frog <i>Amolops larutensis</i> (Boulenger).	547
CAMERON, R. A. D. <i>see</i> CORBET, G. B.	
CORBET, G. B., CAMERON, R. A. D. & GREENWOOD, J. J. D. Small mammals and their ectoparasites from the Scottish islands of Handa (Sutherland), Muck, Pabay, Scalpay and Soay (Inner Hebrides).	301
*DENISON, R. A. A new <i>Protaspis</i> from the Devonian of Utah, with notes on the classification of Pteraspidae	31
*DINELEY, D. L. The Lower Devonian Knoydart faunas	15
EDMUNDS, MALCOLM. On the swimming and defensive response of <i>Hexabranchnus marginatus</i> (Mollusca, Nudibranchia)	425
ESCHMEYER, WILLIAM N. <i>see</i> WHEELER, ALWYNE.	
*GARDINER, B. G. The significance of the preoperculum in actinopterygian evolution.	197
GREENWOOD, J. J. D. <i>see</i> CORBET, G. B.	
*GREENWOOD, P. H. & PATTERSON, C. A fossil osteoglossoid fish from Tanzania (E. Africa)	211
*GROSS, W. Über das Gebiss der Acanthodier und Placodermen	121
HARTNOLL, R. G. Morphology of the genital ducts in female crabs	279
HASTINGS, ANNA B. & RYLAND, J. S. The characters of the polyzoan genera <i>Pentapora</i> and <i>Hippodiplosia</i> with redescrptions of <i>P. foliaceae</i> (Ellis and Solander) and <i>H. verrucosa</i> Canu.	505
HENTZ, A. A new tremataspideid from Ringerike, South Norway	55
INGLIS, W. GRANT. The geographical and evolutionary relationship of Australian trichostrongyloid parasites and their hosts	327
*JARVIK, E. On the structure of the lower jaw in dipnoans: with a description of an early Devonian dipnoan from Canada. <i>Melanognathus canadensis</i> gen. et spec. nov.	155
*KARATAJÜTE-TALIMAA, V. <i>see</i> OBRUCHEV, D.	
KERMACK, DORIS M., KERMACK, K. A. & MUSSETT, FRANCES. The Welsh pantothere <i>Kuehneotherium praecursoris</i>	407
*KERMACK, K. A. The interrelations of early mammals	241
KERMACK, K. A. <i>see also</i> KERMACK, DORIS M.	
KOHN, ALAN J. Type specimens and identity of the described species of <i>Conus</i> IV. The species described by Hwass, Bruguière and Olivi in 1792	431
LANZING, W. J. R. <i>see</i> POTTER, I. C.	
*LEHMAN, J. P. Quelques remarques concernant <i>Drepanaspis gemundenensis</i> Schlüter	39
LEWIS, DAVID B. Some aspects of the ecology of <i>Fabricia sabella</i> (Ehr). (Annelida, Polychaeta)	515
LEWIS, J. G. E. Individual variation in a population of the centipede <i>Scolopendra amazonica</i> from Nigeria and its implications for methods of taxonomic discrimination in the Scolopendridae.	315
*MACADIE, C. I. Ultrasonic probes in palaeontology	251
MCDOWELL, S. B. Affinities of the snakes usually called <i>Elaps lacteus</i> and <i>E. dorsalis</i>	561
*MILES, R. S. Observations on the ptyctodont fish, <i>Rhamphodopsis</i> Watson	99
MUSSETT, FRANCES <i>see</i> KERMACK, DORIS M.	
MYERS, A. A. A new genus and two new species of gammaridean Amphipoda from Central America	527
NELSON, GARETH J. Gill arches of teleostean fishes of the division Osteoglossomorpha	261
*NIELSEN, E. New observations on the skull-roof of the holotype of <i>Tupilakosaurus heilmanni</i> Nielsen	225
*OBRUCHEV, D. & KARATAJÜTE-TALIMAA, V. Vertebrate faunas and correlation of the Ludlovian-Lower Devonian in eastern Europe	5
*ØRVIG, T. Some new acanthodian material from the Lower Devonian of Europe	131
*PARRINGTON, F. R. The identification of the dermal bones of the head	231
PARSONS, M. C. The cephalic and prothoracic skeletomusculature and nervous system in <i>Lethocerus</i> (Heteroptera, Belostomatidae)	349
*PATTERSON, C. <i>see</i> GREENWOOD, P. H.	
POTTER, I. C., LANZING, W. J. R. & STRAHAN, R. Morphometric and meristic studies on populations of Australian lampreys of the genus <i>Mordacia</i>	533
*RITCHIE, A. <i>Ateleaspis tessellata</i> Traquair, a non-cornuate cephalaspideid from the Upper Silurian of Scotland	69
RYLAND, J. S. <i>see</i> HASTINGS, ANNA B.	

	PAGE
*SCHAEFFER, B. Osteichthyan vertebrae	185
STRAHAN, R. <i>see</i> POTTER, I. C.	
*TARLO, L. B. H. The tessellated pattern of dermal armour in the Heterostraci	45
*TOOMBS, H. A. The published works of Dr. E. I. White, F.R.S.	1
VARUGHESE, G. <i>see</i> BERRY, P. Y.	
*WESTOLL, T. S. <i>Radotina</i> and other tesserate fishes	83
WHEELER, ALWYNE & ESCHMEYER, WILLIAM N. The identity of the 'British' scorpionfish <i>Helicolenus microphthalmus</i>	309
